

Lunenburg Heritage Bandstand Report 2009

In the early part of summer 2009 several volunteers and committee members of the Society, scraped, sanded, power washed and started painting the bandstand. Because of complications with weather and availability, this task was not completed until August. We wish to thank all involved, for their time and spirit, and Lunenburg Pro Hardware for their valuable input.

The successful summer concert series was, as in 2008, organized and run by the Lunenburg Folk Harbour Society. We thank them for their work, and the wonderful entertainment. The fees for use paid to the LHS were greatly appreciated and helped with the cost of supplies, used in cleaning up the structure, and with the ongoing expenses.

During 2009 the structure was rented for weddings, served as the Lunenburg Walking Tours refreshment stop, was used for the opening ceremonies for Lunenburg Old Fashion Christmas Festival, and was the site for the Christmas tree and manger. We are always delighted to work with the community on various events and we are proud to share this magnificent structure and grounds.
